Summary

A reliable software QA Engineer who is always motivated to give a complete test automation solution to your business products comprising the latest technology in the field. A great team player and ready to tackle new challenges.

Projects:

DiGii Social | <https://digiisocial.com/>

node js, express js, react js, mysql, AWS, newrelic, websocket/socket.io, Cypress, Github Action

DiGii Social is a secure, school-based platform that educates and prepares children on how to interact responsibly with others online. Think of it as training wheels for social media.

Australian Tenders | <https://www.australiantenders.com.au/>

Full Stack with expressjs(nodejs), template engine(EJS) Mysql, AWS, Cypress, bitbucket pipeline

Australian tender is a tender solution for supplier, buyer and issuer where a list of tender is listed and supplier and buyer can search for tender opportunities. It is like a central repository for tender opportunities.

EnthuZiastic | <https://enthu.com/>

Svelte, node js, GraphQL, mysql, Cypress, Appium, Github Action

EnthuZiastic is a Community Driven platform for enthusiast who are passionate to learn and share new skills every day by enrolling in a course.

BD water | <https://www.bdwater.com.au/>

Angular, node js, mongo db, AWS

BD water is a platform where users can trade and request water licenses.

Experience:

Software Engineer (QA)

Tekkon Technology / Kathmandu / September, 2019 - Present
